- 11 **!** What do you see yourself doing after completing the program? For example what profession or role interests you? why? and what do you hope to have learned in four years?

Web dev, software dev, and foundations regarding desktop administration are the main things I wish to gain from this program.

After that I'll probably become one of those I mentioned above, and enter a small scale environment that'll be just enough to get me by.

But the actual important things are the "Projects". This programme just fits with the workflow of those "projects" perfectly, cause of that, not only does the programme help in its development, they won't be hinderance to eachother too, since they are basically the same area, same expertise, same foundations etc...

Trade is 9/10 th of fortune, a normal job will never get me the amount I need, I'll use these 4 years to develop 5 specially devised projects to get me the amount I need.

That's it.

- 12 **!** Do you have a (part-time) job?

- ☐ Yes
☒ No

- (13) **!** How many hours do you work (approximately) a week?

- ☐ 0-5
☐ 5-10
☐ 10-15
☐ 15-20+

- 14 **!** Do you have a hobby for example or an interest that you would like to share something about?

Finding the best media, Making lists & plans, and Religious proselytising.
